5COBRA

ID5 - Series: -

## SPIR STAR®

## **Applications**

Hydraulics: Bolt tensioning, pressure test equipment (valves, tooling

and control panels), hydraulic tools (instrumentation packages for gauges, control of service equipment,

hydraulic jacks, hydraulic tools)

## **Technical Information**

Inner Core: Polyoxymethylene (POM)

Pressure Support: multi-layers of high-tensile steel wire

Outer Cover: Polyamide (PA)
Color: Dark blue

**Temperature:**  $-30^{\circ}\text{C to } +60^{\circ}\text{C } [-22^{\circ}\text{F to } 140^{\circ}\text{F}]$

Production related variations of the burst pressure of up to 5 % are possible. Other colors upon request.

The safety factors between the burst pressure and the working pressure as well as the test pressure depend on the operating conditions. For gaseous media the outer cover is to be pinpricked. Regarding the safety factor for gaseous media please contact your local SPIR STAR® assembling center.

The indicated working pressure refers to the hose only. Depending on the used fitting the permitted working pressure of a hose assembly may be less.

We reserve our rights for technical changes without notice. Subject to printing errors.

<sup>\*)</sup> Blast-Pro® fittings may only be used for tube cleaning operations inside the tube. They have not been designed for the use outside of tubes.
